REMARKS

Present Status of the Application

The Office Action rejected claims 4 and 7 under 35 U.S.C. 102(e), as being anticipated by Ding (U.S. 2004/0185615A1). The Office Action also rejected claims 1, 3 and 6 under 35 U.S.C. 103(a) as being unpatentable over Ding (U.S. 2004/0185615A1) in view of Tseng (U.S. Patent 5,677,216). The Office Action further indicated that claims 2 and 5 would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Applicants appreciate this indication of allowable subject matter and Applicants have added allowable claimed features of claims 2 and 5 into claims 1 and 4 respectively. Therefore, claims 1, 3-4 and 6-7 possess allowable claimed feature and withdrawing the rejections to claims 1, 3-4 and 6-7 is respectfully requested.

Furthermore, the Office Action stated that applicants claim the foreign priority based on an application in TAIWAN on 05/22/2003 but fail to file a certified copy of 32113810 application as required by 35 U.S.C. 119(b). Applicants respectfully thank for this notification, however, Applicants do not claim the foreign priority while the present invention is filed. Therefore, there is no need to file a certified copy of 32113810 application as required by 35 U.S.C. 119(b).
